A WORLD TRANSFORMED BY CHRISTIAN INVESTING
Our goal is to multiply Kingdom impact through Christian Investment solutions. We construct our strategies so that investors can remain true to their Christian values, leverage attractive investment returns and make a meaningful difference in the world for Christ’s glory. Our investment strategies include:

Exclusionary Screening
Avoiding objectionable portfolio holdings by restricting investments that are inconsistent with Christian values.

Corporate Engagement
Encouraging the adoption of Christ-like business practices through proxy voting and dialogue with the management teams of organizations whose securities are owned by GuideStone Funds.

Impact Investing
Creating positive impact in the world by making specific investments in organizations that seek to protect life, promote human dignity, spread the Gospel and enhance the efficiency and accessibility of life-sustaining resources.
IMPLEMENTATION OF EXCLUSIONARY SCREEN

In accordance with the Adviser’s Christian values, the Funds do not invest in any company that is publicly recognized (as determined by GuideStone Financial Resources) for offering products or services that are incompatible with the Christian values of GuideStone Financial Resources, including but not limited to those involving abortion, sexual immorality, alcohol, tobacco, or gambling.

GuideStone dedicates multiple internal resources to the implementation of our exclusionary screen, which serves as the anchor of our faith-based investment policy. This process is led by the Committee on Faith-Based Investing of GuideStone Financial Resources, the parent organization of GuideStone Capital Management, LLC, and GuideStone Funds.

As it relates to our exclusionary screen, the Committee is responsible for creating the screening criteria and determining which securities should be restricted from investment. GuideStone Capital Management, as adviser to the GuideStone Funds, is then responsible for conducting research on the Committee’s behalf in support of its work and for the adherence by each sub-adviser to only purchasing securities that are allowed by GuideStone.

This process is supported by two analysts within GuideStone Capital Management on a daily basis.

We utilize a wide range of resources in our research efforts — regulatory filings, financial statements and advertising, to name a few — to determine the public perception of a specific company. Moreover, we leverage external research applications from MSCI ESG Manager and ISS Governance DataDesk to gain a deeper understanding of a given company’s business. The result of this extensive, proprietary research is a Restricted Issuers List of securities that cannot be purchased within GuideStone Funds. This list is distributed to the sub-advisers of each Fund, as well as other investment service providers, to ensure all investments within the Funds adhere to the guidelines instituted by the Committee.

SUB-ADVISER INVOLVEMENT

Each sub-adviser executes its investment mandate in accordance with our Restricted Issuers List. GuideStone also conducts its own compliance monitoring of each sub-adviser. If we find a trade that was made in violation of the list, it is reversed to maintain adherence with our guidelines.

KEY FACTS

GuideStone’s Restricted Issuers List typically ranges between:

- 3%–6% of the S&P 500® Index market capitalization
- 6%–10% of the MSCI EAFE Index market capitalization
- 1%–2% of the Bloomberg U.S. Aggregate Bond Index

There can be no guarantee that any strategy will be successful. All investing involves risk, including potential loss of principal.
MANAGER-OF-MANAGERS INVESTMENT APPROACH

As a manager-of-managers, we seek to identify best-in-class sub-advisers for our mutual funds and allocate capital among them. And as the nation’s largest faith-based mutual fund family, GuideStone is uniquely positioned to help investors build well-diversified portfolios that can help meet their return objectives and risk tolerances — all while staying true to their personal values.

FUND CONSTRUCTION AND INVESTMENT MANAGER RESEARCH

GuideStone follows a rigorous sub-adviser evaluation, selection and monitoring process — performing thorough due diligence research so our investors don’t have to. We consider the following qualitative and quantitative factors when making sub-adviser hire and fire decisions, with qualitative factors accounting most of our decision-making process:

Qualitative
- Assess the firm’s competitive advantages
- Analyze the investment team
- Review infrastructure and business
- Understand value-added components of the investment process
- Evaluate consistency and repeatability of process

Quantitative
- Validate the firm’s investment process
- Complete fundamental portfolio analysis
- Conduct performance analysis
- Perform risk management analysis

There can be no guarantee that any strategy will be successful. All investing involves risk, including potential loss of principal.
Over the years, we have analyzed hundreds of investment managers across most asset classes and investment styles in search of the appropriate sub-adviser combinations. By fusing the complementary styles and strategies of whom GuideStone believes to be world-class sub-advisers, GuideStone Funds can provide diversification benefits that are not available on single-manager funds.
