Equity Index Fund: 5, 4, 4 and 5 stars among 1,257, 1,257, 1,099 and 820 Large Blend Funds for the Overall, 3-, 5- and 10-year periods. Global Bond Fund: 5, 4 and 5 stars among 185, 185 and 170 World Bond Funds for the Overall, 3- and 5-year periods. Global Real Estate Securities Fund: 4, 4 and 4 stars among 195, 195 and 169 Global Real Estate Funds for the Overall, 3- and 5-year periods. Medium-Duration Bond Fund: 4, 4, 5 and 4 stars among 403, 403, 348 and 264 Intermediate Core Bond Funds for the Overall, 3-, 5- and 10-year periods. Small Cap Equity Fund: 4, 4, 4 and 3 stars among 603, 603, 512 and 356 Small Blend Funds for the Overall, 3-, 5- and 10-year periods; based on risk-adjusted total returns. The Morningstar Rating™ for funds, or "star rating," is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five- and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36–59 months of total returns, 60% five-year rating/40% three-year rating for 60–119 months of total returns and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Ratings are for the share class shown only; other classes may vary. **Past performance is not a guarantee of future results.**
