The Fund expects, but does not guarantee, a constant net asset value (NAV) of \$1.00 per share.

**Investment Suitability:** This Fund may be suitable for investors who have a short-term investment horizon, seek to maintain a stable dollar value for their investment and can accept a long-term rate of return that may be lower than other fixed income and stock investments.

#### CALENDAR YEAR PERFORMANCE<sup>1</sup>

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance data current to the most recent month-end and complete calendar year performance may be obtained at [GuideStoneFunds.com/funds](http://GuideStoneFunds.com/funds). The investment return of an investment will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance would have been lower without fee waivers and reimbursements to the Fund in effect. Year 2001 annual performance began 8/27/2001. Prior to 5/1/2016, the fund's benchmark was the Citigroup 3-Month Treasury Index. Benchmark performance shown represents the fund's current benchmark linked with its previous benchmark.

#### YIELD\*

7-Day Annualized Yield	7-Day Annualized Yield (Gross)
1.75%	1.75%

\* Yield for the Money Market Fund represents the annualization of the fund's declared dividends over the period indicated, excluding capital gains distributions. The yield more closely reflects the current earnings of the fund than the total return. When the Gross Yield is different, it reflects the yield without fee waivers in effect.

<sup>1</sup> The performance quoted reflects fee waivers in effect, and would have been lower in their absence. All figures shown represent total return, except for those identified as yield. Total return is based on net change in NAV with reinvestment of all distributions. Returns for periods less than one year are aggregate and for periods greater than one year are annualized. Unlike a mutual fund, the performance of an index assumes no taxes, transaction costs, management fees or other expenses. Past rankings are no guarantee of future rankings. Rankings are relative to a peer group and do not necessarily mean that the fund had high total returns.
